RIPE Implementation Plan (Information Technology System)

Sr. No.	RIPE Team Findings and Recommendations	Intended Corrective Actions	Intended Implementation Period	Responsible Body	Compliance / Pending
1.	A comprehensive digital transformation policy is currently missing and should be developed at the earliest.	Draft and approve a comprehensive digital transformation policy covering infrastructure, processes, and security standards.	6 months	Directorate of IT Services in consultation with HoDs, Dir QEC	We are in the processing phase towards SAP implementation

2.	Class attendance on the CMS must be locked immediately after marking to preserve data integrity and ensure compliance with the 75% rule.	Implement CMS configuration to auto-lock attendance after marking; train faculty on new procedure.	4 months	Directorate of IT Services in coordination with Academics, PD SAP	In process
3.	The university website should be regularly updated under a clear policy ensuring consistency and accuracy.	Develop and implement a website content update policy; assign departmental content focal persons.	4 months	Asst. Programmer	In process
4.	The approved university organogram should be uploaded to the website after review and approval.	Collect approved organogram from Administration and upload to website.	3 month	Asst. Programmer	In process

5.	Program Learning Outcomes (PLOs) and Course Learning Outcomes (CLOs) should be evaluated through the CMS.	Configure CMS modules for PLOs/CLOs evaluation and train faculty on usage.	5 months	Directorate of IT Services & Academics, PD SAP	In process
6.	A dedicated "Policies" header should be created on the university website.	Consolidate all policies into one webpage under a "Policies" menu item.	4 months	Asst. Programmer	In process
7.	A dedicated MoUs section should be added to the website with a status column (active/inactive).	Design and deploy MoUs section with search/filter option and status indicators.	4 months	Directorate of IT Services & ORIC, Asst Programmer	In process

8.	Alumni Corner should be available at the website.	Develop Alumni Corner page with registration form, news, and networking features.	6 months	Asst. Programmer	In process
Director. IT Comments: The proposed actions are aligned with the university's IT strategic goals. Implementation will be initiated as per the suggested timelines with required coordination.

Compliance Report against RIPE Implementation Plan (QEC)

Sr. No.	RIPE Team Findings and Recommendations	Intended Corrective Actions	Intended Implementation Period	Responsible Body	Resources Needed	Compliance Status	Documentary Evidence
1.	Student Feedback about Administrative services	The Surveys regarding Student Feedback about Administrative services will be designed and conducted	01 Year	QEC	Teaching Faculties/ Departments and Students Involvement alongside QEC	Student Feedback survey about Administrative services has been conducted.	Annex-1
2.	Faculty feedback about administrative services	The Surveys regarding Faculty Feedback about Administrative services will be designed and conducted	01 Year	QEC	Teaching Faculties/ Departments Involvement	Faculty feedback survey about administrative services has been conducted.	Annex-II

					alongside QEC		
3.	Administrative feedback about their job satisfaction	The Surveys about faculty satisfaction will be designed and conducted	01 Year	QEC	Administrative Departments Involvement alongside QEC	Administrative feedback survey about their job satisfaction has been conducted.	Annex-III
4.	Faculty evaluation about course and semester should be made mandatory.	The Surveys about Course and faculty evaluation will be designed and conducted	01 Year	QEC	Teaching Faculties/ Departments and students Involvement alongside QEC	Faculty evaluation about courses has been successfully conducted.	-
5.	Students should not be allowed to proceed on the portal if the attendance is short	All the necessary provisions would be made to optimize student attendance as per defined rules and regulations	06 Months	Academics Office, IT, QEC and all Teaching Faculties/Departments	Approval from BOS and Academic Council and Syndicate (if necessary)	The strict attendance SOPs are being implemented with the approval of competent authority. Till now the attendance was taken manually, but now onwards it is being taken through SAP, and a strict compliance would be implemented in this regard.	Annex-IV
6.	A clear timeline should be established to ensure the development and implementation of all the policies and systems in a phased, accountable manner.	All the requisite policies would be developed and implemented in true spirit with realistic timeline.	01 Year	QEC, Registrar Office	Particular Teams to develop Policies and their endorsement from statutory bodies	The Institute's Policies and systems are developed as per the defined timelines and in accordance with the directions of competent authority.	Annex-V

7.	Student Appeal Tracking System should be developed, allowing students to submit appeals and monitor the status and progress of their applications or complaints in real-time.	A robust student Appeal system would be developed through competent authority	06 Months	QEC, IT, Student Affairs Department	A defined mechanism duly approved by relevant bodies and accepted by all stake holders.	The initial working has been started on it. Till now the Student Appeal Tracking System is being processed manually. Now SAP is being made functional/operational, and this system would be incorporated in real-time.	Annex-VI
8.	Student feedback and survey results should be formally presented and discussed in Board of Studies (BoS) meetings. Curriculum development and revisions must be informed by input from students and alumni to ensure relevance, responsiveness, and continuous academic improvement	Student Feedback would be taken on board on all relevant forums and University bodies and corrective actions would be taken accordingly.	06 Months	QEC, Academics Office and all Departmental BOS	Approval from BOS and Academic Council and Syndicate (if necessary)	All BOS are directed to include Student Feedback Survey Results/Reports in their meetings and make necessary decisions accordingly in best interest of students, faculty and institute.	Annex-VII

Compliance Report against RIPE Implementation Plan (ORIC)

Sr. No.	RIPE Team Findings and Recommendations	Intended Corrective Actions	Intended Implementation Period	Responsible Body	Resources Needed	Compliance Status	Documentary Evidence
1.	ORIC must be well-versed in HEC policies, including journal classifications, indexing standards, and publication criteria to guide and support faculty effectively and MOU modality with Industry.	Faculty would be made aware about HEC Publication Policies, journal classifications, indexing standards, and publication criteria	06 Months	ORIC, QEC, Registrar Office	Notification from Registrar Office	i. ORIC regularly updates faculty about the HEC Publication Policies in particular about Journal classifications, indexing standards, and publication criteria. The HEC updated Policy on Journals and Research Publications is already disseminated with faculty. ii. ORIC has prepared and shared a Policy Brief/Guidelines Document about HEC Journal Classification/ Indexing Criteria.	Annex-1

2.	Establish an International Research Network (IRN) by compiling contact details of all international collaborators and supervisors (PhD, MS/MPhil) and engaging them during QS and other global ranking surveys.	International Research Network (IRN) would be compiled with contact details of international supervisors and collaborators	01 Year	ORIC, QEC, Academic Office	Researchers Data from Academic Office	The initial working has been started over it and will be completed as per the committed timeline.	Annex-II
3.	Implement a strict publication incentive policy where only JCR-listed publications and externally funded projects qualify for rewards (e.g., course exemptions, monetary awards), promoting quality research output.	Faculty Research Incentive Policy already exists, as per listed recommendations, and is being implemented.	Already been implemented	ORIC, QEC, Registrar Office	Notification from Registrar Office	KUM has an approved (From syndicate) Research Incentives Policy that is being implemented. Based upon the Policy, JCR listed Publications are considered only. The Faculty Research Publication Honorariums are decided based upon this policy.	Annex-III
4.	Organize regular faculty training workshops on publishing in high-impact, JCR-listed journals.	Regular Faculty Trainings would be organized under Faculty Development Programme	Regular Trainings and Workshops	ORIC, QEC, Finance	Faculty Time and Attendance and Honorariums for Resource Persons (if needed)	i. The Training Workshops are being organized on regular basis. ii. The Faculty members are also nominated to attend relevant Capacity Development Programs. iii. Recently the Faculty members from	-

						Management Sciences and THM were provided opportunity to attend ICRE-2025 as Session Chair and Discussants at NUML (KUM was Knowledge Partner of ICRE-2025). iv. The various Webinars of Springer/WOS etc. are also disseminated with faculty to keep them updated about latest knowledge on High Impact Publications.	
5.	Develop performance-based incentive schemes, including Best Researcher and Best Teacher Awards, to foster a culture of academic excellence.	Policy would be developed to acknowledge Best Researcher and Best Teacher through awards.	06 Months	ORIC	Approval from Academic Council and Syndicate	The initial working on Best Researcher and Best Teacher Awards has been started. The Awards would be finalized upon principle approval from worthy Vice Chancellor.	Annex-IV
6.	Enhance industry engagement by formalizing new MOUs and collaboration opportunities.	More Academic & Industrial Links would be created and MOUs be signed	Regular MOUs signing and Linkages Development	ORIC	Industries Visit	i. The impactful Industrial collaborations are being developed on regular basis with special focus on Faculty/Student	Annex-V

						Development, and Capacity Building. ii. Around 23 MOUs with various National/ International Organizations were signed in 2025.	
7.	Define research priorities in consultation with faculty and align them with national and industrial needs to guide future projects and partnerships.	Research Priorities Would be defined and apprised to faculty	06 Months	ORIC, Registrar Office	Approval from Academic Council	The initial working has been started. Another Policy Document about Research Priorities Areas (directed to be worked on by competent authority) is also being worked on, which will be refined to meet this observation too.	Annex-VI
8.	MOU policy needs to be formalized	MOU Policy would be created	02 Months	ORIC	Approval from Academic Council and Syndicate, and then its notification from Registrar Office	The MOU Policy is being worked on. The Policy Draft is in final phase, and will be shared with competent authorities and statutory bodies for approval.	Annex-VII

RIPE Compliance Report- Exams

Detailed Report on Activities and Developments in the Controller of Examination Office

Introduction

This report outlines the major issues, actions, and developments undertaken by the Examination Section/Controller of Examination Office. It highlights the challenges faced during student graduation, the reforms in examination rules, development of degree and transcript formats, procurement of equipment, and the overall improvement of office processes.

Hurdles in Student Graduation

Several students faced difficulties in graduation due to inconsistencies and gaps in the previously approved rules.

1. Problems in Approved Rules

Several rules required revision, particularly those related to CGPA requirements for promotion from one semester to another.

- 2. Rules for credit hour registration were outdated and required modification.**
- 3. Assessment criteria were unclear and needed updates.**

These issues collectively caused delays in graduation processing and student promotions.

Solutions Implemented

Revision of Rules

Due to the above issues, many students were unable to graduate on time. The Examination Section reviewed and revised the rules, and the updated rules were placed before the Academic Council and subsequently approved by the Syndicate.

This approval enabled the Examination Section to announce the pending results of the batch of Spring 2021.

Development of Degree Format

Design and Approval Process

- The Examination Section developed the degree format for the first time.
- A degree design was prepared and evaluated by committee members.
- After multiple reviews, a final degree draft was created.
- The final version was approved by the Academic Council and then by the Syndicate.

Procurement and Printing

Through the help of the PC Office, degrees were obtained from the approved company.

The degrees were received by Procurement Cell.

The Examination Section coordinated local printing of transcripts through an approved vendor.

Uniformity of Result Preparation

Since the Examination Section was newly established, many methods were not standardized. Therefore:

A new uniform file structure showing combined results of each batch was created. This required extensive data compilation and took approximately 4–5 months. The Examination Section successfully developed a uniform result preparation format applicable across the entire university.

Office Development

The Examination Section procured new equipment for:

Transcript printing

This improved the efficiency and quality of documentation.

Successful Graduation of S-21 and F-21 Batches

The new result format was implemented for the first time for the S-21 and F-21 batches.

A new transcript format was also designed and used for the first time.

Coordination With Departments

Several sessions were conducted with HODs to:

Prepare the results according to the approved rules

Ensure uniform implementation of the revised regulations

Facilitate smooth coordination between departments and the Examination Section

Multiple meetings were also held for rule clarification and result compilation consistency.

Departmental Coordination and Training

Multiple sessions were conducted with Heads of Departments to: Guide them on result preparation

Ensure compliance with HEC standards and university rules. Standardized data submission for accurate result compilation. These meetings improved clarity and consistency across departments.

Development of Course Performance/Award Lists

The Examination Section designed a new award list format to ensure consistency in course performance reporting. The new award list was shared with all departments.

Repeating List Preparation

Updated Repeating Lists were also prepared and shared with all departments for verification and result accuracy.

These standardized formats helped streamline result preparation and reduce departmental discrepancies.

Conclusion

The Controller of Examination Office has undertaken significant reforms and developments, including:

Revision of outdated academic rules. Successful compilation and announcement of pending results. Development of standardized degrees and transcript formats. Procurement of essential office equipment. Improved coordination with academic departments. Introduction of uniform award lists and repeating lists. Streamlined graduation processes for major batches.

These efforts have strengthened transparency, efficiency, and uniformity in examination-related processes across the university.
